

ABSTRACT

A source generates a request to receive a document. A determination is made regarding an authorization level associated with the source of the request. Another determination is made as to an authorization level required to view the requested document. If the source of the request is authorized to receive the requested document, the requested document is transmitted to the source of the request. If the source of the request is not authorized to receive the requested document, the unauthorized portions of the requested document are redacted and the redacted version of the requested document is transmitted to the source of the request.
